

Little Valley Farm

Health and Safety

When arriving at Little Valley Farm please ensure that you sign in and review the health and safety policy, site rules, farm map, hazards document and first aid response documents that have been made available.

Be aware that working with and riding horses is a high risk activity.

Riders, handlers and other visitors must at all times use best practice when they are working with horses and taking part in activities at Little Valley Farm.

Always use the correct safety equipment including riding helmets, riding boots and safety vests as appropriate.

Do not take any unnecessary risks with people, animals or vehicles.

Be aware that the farm has electric fencing and that it may well be turned on.

Take note of other stock that may be grazing on the farm.

Be aware of the other riders and spectators who may also be using the facilities.
